

**Name:** Devanshu Surana

**Roll No.:** 23

**Panel:** C

**Batch:** C1

### **OOCCJ Lab Assignment 4B**

**CODE:**

```
import java.io.*;
import java.util.Scanner;

class filejava
{
    public static void main(String[] args)throws IOException
    {
        FileWriter fw=new FileWriter("stud.txt");
        BufferedWriter bw=new BufferedWriter(fw);

        String name;
        int rollno;
        int marks[]=new int[5];

        Scanner sc=new Scanner(System.in);
        System.out.println("Enter name:");
        name=sc.next();
        System.out.println("Enter roll no.:");
        rollno=sc.nextInt();
```

```
for(int i=0;i<marks.length;i++)
{
    System.out.println("Enter marks:");
    marks[i]=sc.nextInt();
}
bw.write(name);
bw.write(""+rollno);

for(int i=0;i<marks.length;i++)
{
    bw.write(""+marks[i]);
}
bw.close();
fw.close();
}
}
```

## OUTPUT:

```
Enter name:
Devanshu
Enter roll no.:
23
Enter marks:
98
Enter marks:
87
Enter marks:
75
Enter marks:
68
Enter marks:
81
```
